Topic Information sheet

Granite Goose proposed action

The Coalition will consider whether the proposed action is consistent with its recommendations, decide what comments it wants to submit to Forest Service, and adopt a comment letter during the meeting or create plan for its submittal prior to close of the Scoping comment period. The threshold for decisions will be consensus minus 1. Comments are due by March 10, 2023. Links to the project's webpage and a discussion thread on the PFC Forum are provided above. Members are urged to begin discussions on the Forum thread mentioned above to help make the most of our time in the meeting.

PFC's recommendations for Granite Goose can be seen in the PFC [Project Document Library](#) under Granite Meadows (the Coalition submitted recommendations for all projects within the former Granite Meadows landscape). Past presentations on Granite Goose itself are also in the Document Library under Granite Goose.
